

Coface Dashboard

AN EXCLUSIVE PRODUCT FOR THE CONSOLIDATED REPORTING OF YOUR COFACE PORTFOLIO

The Dashboard is a three-in-one solution aimed at helping you visualize and **organize** your portfolio, **monitor** the risk management performance and **steer your strategy** towards safer trade.

What is the Dashboard?

The Dashboard is a Business Intelligence online tool which, in a few clicks, allows you to enjoy a complete and organized view of your Coface coverage. With the Dashboard you will find a detailed analysis of your credit risk and claim situation. You will be able to recognize trends and be provided with explanations regarding the state of your coverage. The Dashboard greatly facilitates the management of your credit insurance program while allowing you to check the level of risk transfer. It is an essential asset for monitoring your policies.

An added value to your Coface policy

- Get a consolidated view of your portfolio, organized by regions, divisions and/or sectors
- Go back in the history of your portfolio to make comparisons
- Identify aggregate risk on groups of buyers
- Embrace the risk weighting exposure of your portfolio at a glance
- Keep track of the files' claim you have submitted
- Target crucial information through Key Performance Indicators
- Enhance data and communicate about your receivables to internal and external stakeholders
